

The **NORTHWEST** **3 Point Hitch** For Caterpillar Tractors

3 Point Hitch

5 Bottom 2 Way Plow

- Attaches by bolting to tractor without removal of standard swing drawbar.
- Drawbar can be used without removal of any part of 3 point.
- Lift range approximately 27 inches.
- #3 category implement attaching points.
- All pins and bushings case hardened.
- Latch type lower links to allow tractor operator to hook up to most implements without a helper.
- Allows mounting of NORTHWEST P.T.O. as shown above.
- Has full vertical float and allows optional self-levelling of implement.
